

Certificate of Employment including testimonial

This letter is to confirm that Lukas Petersson, national ID Number 990309-7013, has been employed as a Tekniskpråget worker by the Ericsson Contextual Communication Cloud unit, Ericsson AB in Kista during the period 2019-01-14 to 2019-05-31.

Ericsson Contextual Communication Cloud (ECCC) is a group within the Enterprise Communications department in the Digital Services business area (BDGS). ECCC develops and operates a WebRTC based contextual communication service as well as other cloud-based software-as-a-service offerings.

Lukas Petersson has served as a developer and has worked together with the ECCC team as well as other students. Among other things, Lukas has developed a WebRTC based file sharing application in JavaScript, as well as a dialer application for Android in Kotlin, together with another Tekniskpråget worker.

Lukas Petersson has performed his tasks and work with considerable care and great interest and it is with pleasure that we recommend Lukas Petersson.

Best regards

Kristofer Dovstam

Manager, Ericsson Contextual Communication Cloud
Ericsson AB
